

Hygienic Anti Slip Metallic Epoxy Floor Coating Topcoat Used In Hair Salons

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 400KG
- Price: US\$4.5-6.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Model: Pearl White Epoxy Floor
- Premium: Stunning, Modern Look
- Key Words: 100% Solids Epoxy Resin
- Materials: Epoxy Clear Coat
- Application: Wood, Ceramic Tile, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: **Metallic Epoxy Floor Coating Topcoat, Hygienic Metallic Epoxy Floor Coating**

Product Description

Hygienic Anti Slip Metallic Epoxy Floor Coating Topcoat Used In Hair Salons

Quick Details Of Metallic Epoxy Floor Coating:

In addition to its unique aesthetics, metallic epoxy floor coatings also provide the same advantages as traditional epoxy flooring. This includes an industrial grade flooring system that prevents wear, perforation, moisture, and chemical leakage. The seamless surface is easy to clean and wipe, without the need for waxing or polishing. It is also hygienic and anti slip, improving safety. Metallic epoxy floor coating is a unique solution that can be used in homes and businesses. At home, this beautiful finish is usually used to upgrade the epoxy resin in the basement, adding brightness and depth to the originally dark and cold space. The professional and fashionable appearance of metallic epoxy topcoat can be used in hair salons, hotel lobbies, restaurants, car showrooms, office buildings, shopping centers, and more.

Features Of Metallic Epoxy Floor Coating:

1. Creating a stunning 3D effect
2. Both eye-catching and durable
3. Custom colors and textures available
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.
