

Gray Garage Metallic Epoxy Floor Coating For Exhibition Halls And Restaurants

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 400KG
- Price: US\$4.5-6.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- High-Quality: Metallic Epoxy Floor Garage
- Grade: Top-Notch Flooring
- Key Words: 100% Solids Epoxy Resin
- Materials: Epoxy Clear Coat
- Application: Wood, Ceramic Tile, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: Restaurants Metallic Epoxy Floor Coating, Gray Metallic Epoxy Floor Coating

Product Description

Gray Garage Metallic Epoxy Floor Coating For Exhibition Halls And Restaurants

Quick Details Of Metallic Epoxy Floor Coating:

Many people have noticed the uniqueness and elegance of metallic epoxy flooring in images from the internet, exhibition halls, and restaurants. Most of them have always been interested in creating materials for such amazing flooring. Few surfaces can achieve an amazing finished appearance like professionally installed metallic epoxy flooring. These floors have a deep milky white effect that mimics Lava lamp, liquefied metals and other unique effects. They provide an amazing alternative to standard gray garage panels or unique indoor living spaces.

Features Of Metallic Epoxy Floor Coating:

1. Resists staining from spills
2. Safe option for areas that may get wet
3. Custom colors and textures available
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.
