Product Description

Unique Metallic Epoxy Floor Coating-Pearlescent & Light Reflective

Quick Details Of Metallic Epoxy Floor Coating:

Metallic epoxy flooring is a type of flooring that uses an clear epoxy resin and metallic pigments. This unique mixture of materials creates a flooring that is not only durable, but also has a beautiful and luxurious appearance. Metallic epoxy resin flooring has many advantages compared to other types of flooring and is an ideal choice for homes and businesses. Metallic epoxy resin flooring is very durable and can withstand heavy traffic without wear and tear. It also has anti fouling properties and is easy to clean, making it an ideal choice for busy traffic areas. In addition, the reflective properties of metal pigments provide a bright and warm environment. And, it is resistant to staining and scratching. It also has anti slip properties and is easy to clean. In addition, metallic epoxy resin flooring can bring a modern appearance to your home or business.

Features Of Metallic Epoxy Floor Coating:

1. Three-dimensional look with a gloss finish
2. Pearlescent, light-reflective aggregate blends
3. Custom colors and textures available
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.
