## Product Description

### Lava Brown Metallic Epoxy Floor Coating Seamless Epoxy Resin Flooring

#### Quick Details Of Metallic Epoxy Floor Coating:

The unique feature of epoxy resin flooring is that they use high-quality resin as the base layer, rather than concrete or wood glue. This makes them look smoother and more polished, perfect for your garage or home floor. In addition, epoxy resin flooring is usually easier to clean and maintain than other types of flooring, making it an excellent choice for anyone who wants a low maintenance surface. If you are looking for a durable, aesthetically pleasing, and durable floor, epoxy resin is your choice. Our paint and epoxy flooring are a trustworthy name for high-quality metallic epoxy flooring systems. Our expert team has years of experience in the industry and is able to provide a wide range of options for metallic epoxy flooring to meet any demand.

#### Features Of Metallic Epoxy Floor Coating:

1. Seamless resinous designer flooring system
2. Unique, three-dimensional appearance
3. Custom colors and textures available
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

#### Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.
