

Rock Solid Metallic Epoxy Resin Floor Coating For Nightclubs

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 400KG
- Price: US\$4.5-6.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working Days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Title: Rocksolid Metallic Floor Coating
- Colorings: Metallic Pigments Powder
- Key Words: 100% Solids Epoxy Resin
- Materials: Epoxy Clear Coat
- Application: Wood, Ceramic Tile, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: **Metallic Epoxy Resin Floor Coating, Rock Solid Epoxy Resin Floor Coating**

Product Description

Rock Solid Metallic Floor Epoxy Resin Coatings For Nightclubs

Quick Details Of Metallic Epoxy Floor Coating:

After the floor is ready, we will apply colored epoxy primer to your metallic epoxy floor. After curing, we screen the floor using metallic pigments or powders. We combine metallic pigments of different colors and use various technologies to create a 3d three-dimensional appearance with the illusion of plasma rivers, corrugated water, volcanic craters, etc. Epoxy resin coatings have flowability and self-levelling properties, so we use trowels, scrapers, rollers, blowers, and other tools to disperse the epoxy resin and create a ripple effect. A pool float can be used to create eye-catching vortices, or more unusual patterns can be added by mixing and showering different metallic pigments on the basecoat. Once you are satisfied with the design, the epoxy resin will cure and we will apply a high-performance topcoat.

Features Of Metallic Epoxy Floor Coating:

1. Nightclub, auto showroom, or hotel flooring
2. Resist damage and staining
3. Custom colors and textures available
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.

Product Descriptions Of Metallic Epoxy Floor Coating:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	600-800 mPa·s	50-150 mPa·s
Density, g/cm ³	1.07±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D80-85	
Pot Life	30-40mins@25°C	
Curing Time	8-12hrs@35°C, 16-24hrs@25°C 24hrs, Dry Completely	
Thickness	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages, Warehouses, Airports and hangars. Commercial Use - Shopping malls and boutiques, Hotels, Offices, Showrooms, Restaurants, Hospitals, Schools, Bar Tops, Table Tops. Residential Use - Entrances and hallways, basements, entertainment rooms, bathrooms, kitchens and living rooms.
