

High Gloss Metallic Epoxy Floor Coating Commercial Settings Lava Like Appearance

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 400KG
- Price: US\$4.5-6.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working Days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Item Title: Marbleized Epoxy Floor
- Trait: Durable Sheen
- Key Words: 100% Solids Epoxy
- Materials: Epoxy Resin And Hardener
- Application: Wood, Ceramic Tile, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: **Metallic Epoxy Floor Coating High Gloss, Metallic Epoxy Floor Coating Commercial**

Product Description

High-Gloss Metallic Epoxy Floor Cost Commercial Settings Lava-Like Appearance

Quick Details Of Metallic Epoxy Floor Coating:

Metallic epoxy floors offer a stunning, high-gloss finish with a three-dimensional, metallic appearance. They create a luxurious and contemporary look that can enhance the overall aesthetics of any space. These floors can be highly customized to suit individual preferences and design concepts. They are available in a wide range of colors, patterns, and effects, allowing for endless creative possibilities. It is possible to achieve a variety of effects, such as marbling, veining, or even a lava-like appearance. Metallic epoxy floors are highly durable and long-lasting. They have excellent resistance to stains, impacts, abrasions, and chemicals, making them suitable for high-traffic areas and commercial settings.

Features Of Metallic Epoxy Floor Coating:

1. Visually stunning appearance
2. Highly resistant to chemicals, staining
3. Custom colors and textures available
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.
