Unique Aesthetic Metallic Epoxy Resin Custom Designs Long-Lasting Strength

Quick Details Of Metallic Epoxy Floor Coating:

Exquisite Color Variations: Metallic epoxy floors offer a captivating range of color variations that can transform any space into a visual masterpiece. The application of metallic pigments creates a mesmerizing interplay of hues, allowing for endless possibilities in achieving striking color combinations, gradients, and even custom designs. From vibrant blues and purples to elegant golds and silvers, these floors provide a captivating and unique aesthetic.

Features Of Metallic Epoxy Floor Coating:

1. Eye-catching allure with durability
2. Unparalleled long-lasting strength
3. Custom colors and textures available
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.
