

Seamless High Gloss Metallic Floor Paint With Pigments Blend Dynamic Swirl

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 400KG
- Price: US\$4.5-6.5/Kg
- Packaging Details: Bottle/Cartron/Wooden Box
- Delivery Time: 3-7 Working Days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Ton/Year

Product Specification

- Article Name: Metallic White Epoxy Floor
- Element: Seamless Protection
- Key Words: 100% Solids Content
- Materials: Epoxy Resin Topcoat
- Application: Wood, Ceramic Tile, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: **Seamless High Gloss Metallic Floor Paint, Metallic Floor Paint With Pigments Blend**

Product Description

Seamless High-Gloss Metallic Floor Paint With Pigments Blend Dynamic Swirl

Quick Details Of Metallic Epoxy Floor Coating:

One of the standout features of metallic epoxy floors is their seamless and high-gloss finish. This creates a sleek, reflective surface that enhances the overall ambiance of a room. The flawless, mirror-like shine adds a touch of sophistication and luxury, making these floors ideal for upscale residential and commercial settings. Unparalleled Depth and Dimension: Metallic epoxy floors are renowned for their ability to create an illusion of depth and dimension. The metallic pigments blend and swirl within the epoxy, forming captivating patterns reminiscent of flowing water, molten lava, or celestial phenomena. The result is a visually dynamic floor that adds an element of intrigue and artistic flair to any environment.

Features Of Metallic Epoxy Floor Coating:

1. Stunningly attractive with resilience
2. Beauty combined with enduring strength
3. Custom colors and textures available
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.
