

## Smooth Glass - Like Surface Liquid Casting Resin Compatible With Pigments And Dyes

Our Product Introduction

for more products please visit us on [epoxyresinfloorcoating.com](http://epoxyresinfloorcoating.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-DP2001
- Minimum Order Quantity: 300KG
- Price: US\$4.5-6.5/Kg
- Packaging Details: Bottle/Carton/Wooden Box
- Delivery Time: 3-7 Working Days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Kg/Year

### Product Specification

- Emblematic Branding Label: Clear Coat Over Epoxy Paint
- Main Characteristic: Fast Set
- Key Words: Bubble Free, Crystal Clear
- Materials: Epoxy Resin And Hardener
- Application: Casting, Coating And Art
- Mixing Ratio: 2:1 By Weight
- Pot Life: 60 Minutes
- Shelf Life: 12 Months
- Highlight: **Smooth Glass Liquid Casting Resin, Liquid Casting Resin With Dyes**

## Product Description

### Smooth Glass-Like Surface Liquid Casting Resin Compatible With Pigments And Dyes

#### Quick Details Of Liquid Casting Resin:

Liquid casting resin, an intricately crafted compound formed by meticulously blending two distinct components in precise ratios, triggers a chemical metamorphosis that culminates in solidification during the curing process. Post-amalgamation, the compound is delicately poured into molds, setting in motion a gradual solidification process over a predetermined duration. Renowned for its adaptability, this resin effortlessly incorporates colorants, predominantly pigments or dyes, facilitating nuanced alterations in visual aesthetics and an expansive spectrum of colors. This versatile material stands as a cornerstone in diverse applications, enabling the creation of a varied array of items, prototypes, and specialized coatings crucial in artisanal crafts, creative endeavors, and a myriad of industrial applications.

#### Features Of Liquid Casting Resin:

1. Compatible with pigments and dyes
2. Smooth, glass-like surface
3. Brings depth and dimension to your creations
4. UV resistant, highest yellowing resistance
5. Self-leveling & high glossy
6. Ideal for all casting and art projects

#### Advantages Of Liquid Casting Resin:

Liquid casting resin refers to a type of resin specifically formulated for casting or molding purposes. It is a two-part polymer that typically consists of a liquid resin and a hardener or catalyst. When these components are combined in the correct ratio and mixed thoroughly, a chemical reaction occurs, causing the mixture to cure and solidify into a durable and clear or translucent material.

Liquid casting resin is widely used in various applications such as crafting, art, jewelry making, model building, and creating prototypes. It is known for its ability to capture fine details, produce smooth surfaces, and create intricate shapes. This resin type is versatile and allows for the addition of colorants, pigments, dyes, and additives to achieve desired effects before pouring into molds or forms for casting.

#### Product Descriptions Of Liquid Casting Resin:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	400-600 mPa·s	300-500 mPa·s
Density, g/cm3	1.07±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D85-90	
Pot Life	50-60mins@25°C	
Curing Time	16-24hrs@35°C, 24-36hrs@25°C 48hrs, Dry Completely	
Max Pour Depth	5-10cm max per single pour	
Shelf Life	12 Months	
Application	Ideal for all Casting, Coating and Art Projects including Cutting Boards, Coasters, Countertops, Bartop, Resin Art, Resin Jewelry, Coating Artwork and Acrylic Pour Paintings, Geode Paintings, Molds, River Tables
