

Crystal Clear Deep Pour Liquid Glass Epoxy For Resin Ocean Dioramas

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-DP2001
- Minimum Order Quantity: 300KG
- Price: US\$4.5-6.5/Kg
- Packaging Details: Bottle/Carton/Wooden Box
- Delivery Time: 3-7 Working Days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Kg/Year

Product Specification

- Trade Line Emblem: Polyurethane Clear Coat Over Epoxy
- Key Aspect: Artistic Versatility
- Key Words: Bubble Free, Crystal Clear
- Materials: Epoxy Resin And Hardener
- Application: Casting, Coating And Art
- Mixing Ratio: 2:1 By Weight
- Pot Life: 60 Minutes
- Shelf Life: 12 Months
- Highlight: **Deep Pour Liquid Glass Epoxy, Liquid Glass Epoxy Crystal Clear**

Product Description

Crystal-Clear Deep Pour Liquid Glass Epoxy For Resin Ocean Dioramas

Quick Details Of Liquid Casting Resin:

Liquid casting resin stands out not only for its suitability for intricate projects but also for its environmental friendliness compared to other resins. It is often formulated with low or zero volatile organic compounds (VOCs), reducing its impact on indoor air quality and minimizing harmful emissions during the curing process. This eco-conscious formulation makes it a preferred choice for environmentally conscious artisans and manufacturers who prioritize sustainability in their work. Additionally, liquid casting resin can be produced using renewable resources or recycled materials, further reducing its carbon footprint. By choosing liquid casting resin, artisans and manufacturers can create stunning works of art while minimizing their environmental impact, demonstrating a commitment to sustainability in their craft.

Features Of Liquid Casting Resin:

1. Crystal-clear resin for resin ocean dioramas
2. Heat-resistant resin for resin lampshade molds
3. Brings depth and dimension to your creations
4. UV resistant, highest yellowing resistance
5. Self-leveling & high gloss finish
6. Ideal for all casting and art projects

Advantages Of Liquid Casting Resin:

Liquid casting resin refers to a type of resin specifically formulated for casting or molding purposes. It is a two-part polymer that typically consists of a liquid resin and a hardener or catalyst. When these components are combined in the correct ratio and mixed thoroughly, a chemical reaction occurs, causing the mixture to cure and solidify into a durable and clear or translucent material.

Liquid casting resin is widely used in various applications such as crafting, art, jewelry making, model building, and creating prototypes. It is known for its ability to capture fine details, produce smooth surfaces, and create intricate shapes. This resin type is versatile and allows for the addition of colorants, pigments, dyes, and additives to achieve desired effects before pouring into molds or forms for casting.

Product Descriptions Of Liquid Casting Resin:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	400-600 mPa·s	300-500 mPa·s
Density, g/cm3	1.07±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D85-90	
Pot Life	50-60mins@25°C	
Curing Time	16-24hrs@35°C, 24-36hrs@25°C 48hrs, Dry Completely	
Max Pour Depth	5-10cm max per single pour	
Shelf Life	12 Months	
Application	Ideal for all Casting, Coating and Art Projects including Cutting Boards, Coasters, Countertops, Bartop, Resin Art, Resin Jewelry, Coating Artwork and Acrylic Pour Paintings, Geode Paintings, Molds, River Tables
