

## Self Leveling Low Bubble Art Resin 1 Gallon For Resin Tabletop Fountain Crafting

## **Basic Information**

. Place of Origin: **CHINA** . Brand Name: **CREKOAT** · Certification: TDS, MSDS Model Number: CK-DP2001 Minimum Order Quantity: 500KG

• Price: US\$4.0-6.0/Kg

Bottle/Carton/Wooden Box Packaging Details:

• Delivery Time: 3-7 Working Days

Payment Terms: T/T, Western Union, MoneyGram

. Supply Ability: 1000000 Kg/Year

## **Product Specification**

 Article Identification Seal: Clear Resin Hardener High-Performance Backbone Feature:

. Key Words: Bubble Free, Crystal Clear Materials: Epoxy Resin And Hardener Casting, Coating And Art · Application:

Mixing Ratio: 2:1 By Weight Pot Life: 60 Minutes Shelf Life: 12 Months

• Highlight: Self Leveling Low Bubble Art Resin, 1 Gallon Low Bubble Art Resin

# CREKOAT

## **Product Description**

#### Low-Bubble Art Resin 1 Gallon For Resin Tabletop Fountain Crafting

#### **Quick Details Of Liquid Casting Resin:**

Liquid casting resin possesses key properties such as low viscosity for intricate detailing, specific curing times, exceptional clarity, extended workability, durability upon curing, minimal shrinkage, compatibility with additives, and varying environmental impacts. These characteristics render it a versatile material suitable for diverse artistic, craft, and industrial applications, offering artisans and manufacturers flexibility, precision, and durability in their creations while minimizing environmental impact.

#### Features Of Liquid Casting Resin:

- 1. Specialized resin for resin tabletop fountain crafting
- 2. Low-bubble resin for resin aquarium ornamentation
- 3. Brings depth and dimension to your creations
- 4. UV resistant, highest yellowing resistance
- 5. Self-leveling & high gloss finish
- 6. Ideal for all casting and art projects

#### **Advantages Of Liquid Casting Resin:**

Liquid casting resin refers to a type of resin specifically formulated for casting or molding purposes. It is a two-part polymer that typically consists of a liquid resin and a hardener or catalyst. When these components are combined in the correct ratio and mixed thoroughly, a chemical reaction occurs, causing the mixture to cure and solidify into a durable and clear or translucent material.

Liquid casting resin is widely used in various applications such as crafting, art, jewelry making, model building, and creating prototypes. It is known for its ability to capture fine details, produce smooth surfaces, and create intricate shapes. This resin type is versatile and allows for the addition of colorants, pigments, dyes, and additives to achieve desired effects before pouring into molds or forms for casting.

#### **Product Descriptions Of Liquid Casting Resin:**

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25ºC	400-600 mPa⋅s	300-500 mPa⋅s
Density, g/cm3	1.07±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D85-90	
Pot Life	50-60mins@25°C	
Curing Time	16-24hrs@35°C, 24-36hrs@25°C	
	48hrs, Dry Completely	
Max Pour Depth	5-10cm max per single pour	
Shelf Life	12 Months	
Application	Ideal for all Casting, Coating and Art Projects including Cutting Boards,	
	Coasters, Countertops, Bartop, Resin Art, Resin Jewelry, Coating Artwork and	
	Acrylic Pour Paintings, Geode Paintings, Molds, River Tables
