

## UV Stable Outdoor Liquid Casting Resin With Glow In The Dark Pigments

Our Product Introduction

for more products please visit us on [epoxyresinfloorcoating.com](http://epoxyresinfloorcoating.com)

### Basic Information

- Place of Origin: DONGGUAN, CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-ART1001
- Minimum Order Quantity: 500KG
- Price: US\$4.0-6.0/Kg
- Packaging Details: Bottle/Carton/Wooden Box
- Delivery Time: 3-7 Working Days
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 1000000 Kg/Year

**CREKOAT**

### Product Specification

- Article Classification Insignia: Glass Like Epoxy Resin
- Core Quality: Flexible Formulation
- Key Words: Bubble Free, Crystal Clear
- Materials: Epoxy Resin And Hardener
- Application: Casting, Coating And Art
- Mixing Ratio: 1:1 By Volume
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: **Outdoor Liquid Casting Resin, UV Stable Liquid Casting Resin**

**CREKOAT**

## Product Description

### UV-Stable Outdoor Liquid Casting Resin With Glow In The Dark Pigments

#### Quick Details Of Liquid Casting Resin:

Liquid casting resin excels in its ability to cater to both clear and colored applications, showcasing its versatility and adaptability across a wide range of artistic projects. With its inherent transparency, liquid casting resin is well-suited for projects requiring a see-through finish, such as encapsulating delicate objects or creating sleek resin jewelry pieces with a polished, glass-like appearance. Furthermore, its compatibility with various pigments and dyes enables artisans to infuse their creations with vibrant colors and intricate patterns, adding depth and dimension to their designs. Whether opting for a subtle, translucent effect or a bold, colorful statement, liquid casting resin offers artisans the flexibility to explore endless creative possibilities and bring their artistic visions to life with precision and flair. This versatility makes liquid casting resin a versatile medium for artists and craftsmen seeking to push the boundaries of their creativity and produce stunning, one-of-a-kind pieces that captivate the imagination.

#### Features Of Liquid Casting Resin:

1. Endure outdoor elements with UV-stable resin for sculptures
2. Craft intricate chess pieces with specialty resin
3. Brings depth and dimension to your creations
4. UV resistant, highest yellowing resistance
5. Self-leveling & high gloss finish
6. Ideal for all casting and art projects

#### Advantages Of Liquid Casting Resin:

Liquid casting resin refers to a type of resin specifically formulated for casting or molding purposes. It is a two-part polymer that typically consists of a liquid resin and a hardener or catalyst. When these components are combined in the correct ratio and mixed thoroughly, a chemical reaction occurs, causing the mixture to cure and solidify into a durable and clear or translucent material.

Liquid casting resin is widely used in various applications such as crafting, art, jewelry making, model building, and creating prototypes. It is known for its ability to capture fine details, produce smooth surfaces, and create intricate shapes. This resin type is versatile and allows for the addition of colorants, pigments, dyes, and additives to achieve desired effects before pouring into molds or forms for casting.

#### Product Descriptions Of Liquid Casting Resin:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	1800-2200 mPa·s	600-800 mPa·s
Density, g/cm <sup>3</sup>	1.07±0.05	0.95±0.03
Mix Ratio	1:1 by volume	
Hardness	Shore, D85-90	
Pot Life	30-40mins@25°C	
Curing Time	6-8hrs@35°C, 10-15hrs@25°C 24hrs, Dry Completely	
Max Pour Depth	1-6cm max per single pour	
Shelf Life	12 Months	
Application	Ideal for all Casting, Coating and Art Projects including Cutting Boards, Coasters, Countertops, Bartop, Resin Art, Resin Jewelry, Coating Artwork and Acrylic Pour Paintings, Geode Paintings, Molds, River Tables
