

## Seamless Smooth Finish Metallic Epoxy Floor Coating Create Unique Marbled Effect

### Our Product Introduction

for more products please visit us on [epoxyresinfloorcoating.com](http://epoxyresinfloorcoating.com)

#### Basic Information

- Place of Origin: DONGGUAN, CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 500KG
- Price: US\$3.2-4.5/Kg
- Packaging Details: Bottle/Carton/Pallet
- Delivery Time: 3-7 Working Days
- Payment Terms: T/T
- Supply Ability: 1000 Ton/Month

#### Product Specification

- Product Title: Mica Epoxy Floor
- Atypical Quality: Seamless
- Key Words: High-Gloss Finish
- Materials: 100% Solids Epoxy
- Application: Wood, Tile, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: Seamless Metallic Epoxy Floor Coating, Smooth Finish Metallic Epoxy Floor Coating

## Product Description

### Seamless Smooth Finish Metallic Epoxy Floor Coating Create A Unique Marbled Effect

#### Quick Details Of Metallic Epoxy Floor Coating:

When considering flooring options, there are distinct differences between traditional epoxy flooring and metallic epoxy flooring. Traditional epoxy floors typically present a single color or speckled pattern, while metallic epoxy floors create a unique marbled effect with a metallic shine by mixing metallic pigments into transparent epoxy resin and manipulating the flow of pigments during application. Traditional epoxy flooring excels in durability and customization, whereas metallic epoxy stands out for its artistic design possibilities, albeit at a higher cost, making it a favored choice among those seeking visually striking and personalized flooring solutions.

#### Features Of Metallic Epoxy Floor Coating:

1. Durable and long-lasting
2. Seamless and smooth finish
3. Customizable colors and patterns
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

#### Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.

#### Product Descriptions Of Metallic Epoxy Floor Coating:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	700-900 mPa.s	300-500 mPa.s
Density, g/cm3	1.05±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D80-85	
Pot Life	30-40mins@25°C	
Curing Time	6-8hrs@35°C, 10-15hrs@25°C 24hrs, Dry Completely	
Recoat Time	2Hrs	
Thickness	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages, Warehouses, Airports and hangars. Commercial Use - Shopping malls and boutiques, Hotels, Offices, Showrooms, Restaurants, Hospitals, Schools, Bar Tops, Table Tops. Residential Use - Entrances and hallways, basements, entertainment rooms, bathrooms, kitchens and living rooms.
