

Heat Resistant Properties Metallic Epoxy Floor Coating Anti-Microbial Surface

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: DONGGUAN, CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 500KG
- Price: US\$3.2-4.5/Kg
- Packaging Details: Bottle/Cartron/Pallet
- Delivery Time: 3-7 Working Days
- Payment Terms: T/T
- Supply Ability: 1000 Ton/Month

Product Specification

- Line Designation: Metallic Flooring System
- Unique Quality: Chemical-Resistant
- Key Words: High-Gloss Finish
- Materials: 100% Solids Epoxy
- Application: Wood, Tile, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: **Heat Resistant Metallic Epoxy Floor Coating,
Anti-Microbial Metallic Epoxy Floor Coating**

Product Description

Heat Resistant Properties Metallic Epoxy Floor Coating Anti-Microbial Surface

Quick Details Of Metallic Epoxy Floor Coating:

When considering flooring options, traditional epoxy flooring and metallic epoxy flooring present distinct characteristics. Traditional epoxy floors typically feature solid colors or speckled designs, offering a classic and durable finish. In contrast, metallic epoxy flooring showcases a unique marbled effect with a glossy metallic shine, achieved by blending metallic pigments into clear epoxy resin and manipulating them during application to create stunning visual effects. While traditional epoxy flooring is valued for its resilience and versatility, metallic epoxy flooring stands out for its artistic appeal and customization possibilities, making it a premium choice for individuals seeking a sophisticated and eye-catching flooring solution that adds a touch of elegance and luxury to any space.

Features Of Metallic Epoxy Floor Coating:

1. Heat resistant properties
2. Anti-microbial surface
3. Customizable colors and patterns
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.

Product Descriptions Of Metallic Epoxy Floor Coating:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	700-900 mPa.s	300-500 mPa.s
Density, g/cm ³	1.05±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D80-85	
Pot Life	30-40mins@25°C	
Curing Time	6-8hrs@35°C, 10-15hrs@25°C 24hrs, Dry Completely	
Recoat Time	2Hrs	
Thickness	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages, Warehouses, Airports and hangars. Commercial Use - Shopping malls and boutiques, Hotels, Offices, Showrooms, Restaurants, Hospitals, Schools, Bar Tops, Table Tops. Residential Use - Entrances and hallways, basements, entertainment rooms, bathrooms, kitchens and living rooms.
