

Reflective Metallic Epoxy Floor Coating High Gloss Or Matte Finish

Our Product Introduction

for more products please visit us on epoxyresinfloorcoating.com

Basic Information

- Place of Origin: DONGGUAN, CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 500KG
- Price: US\$3.2-4.5/Kg
- Packaging Details: Bottle/Cartron/Pallet
- Delivery Time: 3-7 Working Days
- Payment Terms: T/T
- Supply Ability: 1000 Ton/Month

Product Specification

- Article Label: Metallic Floor Finish
- Standalone Feature: UV Resistant
- Key Words: High-Gloss Finish
- Materials: 100% Solids Epoxy
- Application: Wood, Tile, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: **High Gloss Metallic Epoxy Floor Coating,
Reflective Metallic Epoxy Floor Coating,
Matte Finish Metallic Epoxy Floor Coating**

Product Description

Reflective Metallic Epoxy Floor Coating High Gloss Or Matte Finish Choices

Quick Details Of Metallic Epoxy Floor Coating:

In the realm of flooring choices, traditional epoxy flooring and metallic epoxy flooring diverge significantly in both appearance and functionality. Traditional epoxy floors typically offer a solid color or speckled design, known for their durability and practicality in various settings. On the other hand, metallic epoxy flooring presents a visually striking marbled effect with a glossy metallic finish, achieved through the incorporation of metallic pigments into transparent epoxy resin and the artistic manipulation of these pigments during application to create intricate patterns and visual depth. While traditional epoxy flooring emphasizes resilience and versatility, metallic epoxy flooring stands out for its artistic flair and customization options, making it a premium selection for individuals looking to make a bold and sophisticated design statement in their spaces.

Features Of Metallic Epoxy Floor Coating:

1. Reflective properties for enhanced lighting
2. High gloss or matte finish choices
3. Customizable colors and patterns
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.

Product Descriptions Of Metallic Epoxy Floor Coating:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	700-900 mPa.s	300-500 mPa.s
Density, g/cm ³	1.05±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D80-85	
Pot Life	30-40mins@25°C	
Curing Time	6-8hrs@35°C, 10-15hrs@25°C 24hrs, Dry Completely	
Recoat Time	2Hrs	
Thickness	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages, Warehouses, Airports and hangars. Commercial Use - Shopping malls and boutiques, Hotels, Offices, Showrooms, Restaurants, Hospitals, Schools, Bar Tops, Table Tops. Residential Use - Entrances and hallways, basements, entertainment rooms, bathrooms, kitchens and living rooms.
