

## Glossy Metallic Epoxy Floor Coating Embedded Glitter Or Metallic Flakes For Added Sparkle

### Our Product Introduction

for more products please visit us on [epoxyresinfloorcoating.com](http://epoxyresinfloorcoating.com)

#### Basic Information

- Place of Origin: DONGGUAN, CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 500KG
- Price: US\$3.2-4.5/Kg
- Packaging Details: Bottle/Cartron/Pallet
- Delivery Time: 3-7 Working Days
- Payment Terms: T/T
- Supply Ability: 1000 Ton/Month

#### Product Specification

- Labeling Designation: Metallic Epoxy Over Tile
- Rare Quality: Seamless Uniformity
- Key Words: High-Gloss Finish
- Materials: 100% Solids Epoxy
- Application: Wood, Tile, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: **Metallic Flakes Epoxy Floor Coating,  
Embedded Glitter Epoxy Floor Coating,  
Glossy Metallic Epoxy Floor Coating**

## Product Description

### Glossy Metallic Epoxy Floor Coating Embedded Glitter Or Metallic Flakes For Added Sparkle

#### Quick Details Of Metallic Epoxy Floor Coating:

In the domain of flooring options, traditional epoxy flooring and metallic epoxy flooring diverge notably in their visual impact and customization potential. Traditional epoxy floors typically feature solid colors or speckled designs, prized for their durability and utilitarian appeal. In contrast, metallic epoxy flooring presents a striking marbled effect with a glossy metallic sheen, achieved by blending metallic pigments into transparent epoxy resin and skillfully manipulating them during installation to produce elaborate patterns and visual depth. While traditional epoxy flooring excels in robustness and adaptability, metallic epoxy flooring stands out for its artistic ingenuity and bespoke design opportunities, making it a premier choice for individuals seeking a sophisticated and visually arresting flooring solution that elevates the aesthetic of any space.

#### Features Of Metallic Epoxy Floor Coating:

1. Suitable for high-traffic areas
2. Embedded glitter or metallic flakes for added sparkle
3. Customizable colors and patterns
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

#### Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.

#### Product Descriptions Of Metallic Epoxy Floor Coating:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	700-900 mPa.s	300-500 mPa.s
Density, g/cm3	1.05±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D80-85	
Pot Life	30-40mins@25°C	
Curing Time	6-8hrs@35°C, 10-15hrs@25°C 24hrs, Dry Completely	
Recoat Time	2Hrs	
Thickness	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages, Warehouses, Airports and hangars. Commercial Use - Shopping malls and boutiques, Hotels, Offices, Showrooms, Restaurants, Hospitals, Schools, Bar Tops, Table Tops. Residential Use - Entrances and hallways, basements, entertainment rooms, bathrooms, kitchens and living rooms.
