

Anti-Static Properties Metallic Epoxy Floor Coating Or Electronic-Sensitive Areas

Our Product Introduction

Basic Information

- Place of Origin: DONGGUAN, CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 500KG
- Price: US\$3.2-4.5/Kg
- Packaging Details: Bottle/Cartron/Pallet
- Delivery Time: 3-7 Working Days
- Payment Terms: T/T
- Supply Ability: 1000 Ton/Month

Product Specification

- Ware Appellation: Metallic Epoxy Flooring For Homes
- Distinctive Attribute: Exceptional Durability
- Key Words: High-Gloss Finish
- Materials: 100% Solids Epoxy
- Application: Wood, Tile, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: Anti-Static Metallic Epoxy Floor Coating, Wood Metallic Epoxy Floor Coating

Product Description

Anti-Static Properties Metallic Epoxy Floor Coating Or Electronic-Sensitive Areas

Quick Details Of Metallic Epoxy Floor Coating:

In the realm of flooring choices, traditional epoxy flooring and metallic epoxy flooring distinctly differentiate themselves in both appearance and application. Traditional epoxy floors typically present solid colors or speckled patterns, known for their resilience and practicality across various environments. In contrast, metallic epoxy flooring offers a visually captivating marbled effect with a glossy metallic sheen, achieved by blending metallic pigments into clear epoxy resin and creatively manipulating them during installation to create intricate designs and visual depth. While traditional epoxy flooring emphasizes durability and versatility, metallic epoxy flooring stands out for its artistic flair and customization options, making it a premium selection for those seeking a luxurious and visually striking flooring solution that adds a touch of elegance to any space.

Features Of Metallic Epoxy Floor Coating:

1. Temperature resistant, suitable for hot environments
2. Anti-static properties for electronic-sensitive areas
3. Customizable colors and patterns
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.

Product Descriptions Of Metallic Epoxy Floor Coating:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	700-900 mPa.s	300-500 mPa.s
Density, g/cm3	1.05±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D80-85	
Pot Life	30-40mins@25°C	
Curing Time	6-8hrs@35°C, 10-15hrs@25°C 24hrs, Dry Completely	
Recoat Time	2Hrs	
Thickness	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages, Warehouses, Airports and hangars. Commercial Use - Shopping malls and boutiques, Hotels, Offices, Showrooms, Restaurants, Hospitals, Schools, Bar Tops, Table Tops. Residential Use - Entrances and hallways, basements, entertainment rooms, bathrooms, kitchens and living rooms.
