

Self-Leveling Metallic Epoxy Floor Coating For Heavy-Duty Use

Our Product Introduction

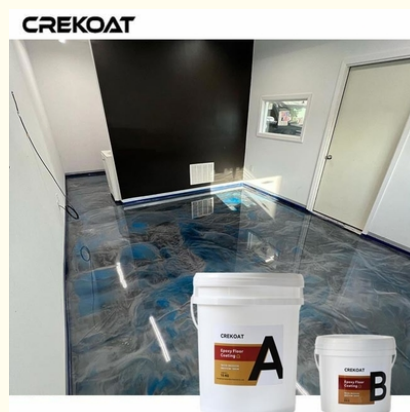

Basic Information

- Place of Origin: DONGGUAN, CHINA
- Brand Name: CREKOAT
- Certification: TDS, MSDS
- Model Number: CK-MTL2001
- Minimum Order Quantity: 500KG
- Price: US\$3.2-4.5/Kg
- Packaging Details: Bottle/Cartron/Pallet
- Delivery Time: 3-7 Working Days
- Payment Terms: T/T
- Supply Ability: 1000 Ton/Month

Product Specification

- Product Name: Metallic Epoxy Floor System
- Unconventional Characteristic: Infinite Customization
- Key Words: High-Gloss Finish
- Materials: 100% Solids Epoxy
- Application: Wood, Tile, Concrete
- Mixing Ratio: 2:1 By Weight
- Pot Life: 40 Minutes
- Shelf Life: 12 Months
- Highlight: Heavy Duty Metallic Epoxy Floor Coating,
Heavy Duty Epoxy Floor Coating,
Self Leveling Metallic Epoxy Floor Coating

Product Description

Self-Leveling Metallic Epoxy Floor Coating For Heavy-Duty Use

Quick Details Of Metallic Epoxy Floor Coating:

In the spectrum of flooring options, traditional epoxy flooring and metallic epoxy flooring diverge notably in their aesthetic appeal and design versatility. Traditional epoxy floors typically feature solid colors or speckled patterns, valued for their durability and functionality in a range of settings. Conversely, metallic epoxy flooring showcases a mesmerizing marbled effect with a luminous metallic finish, achieved by blending metallic pigments into transparent epoxy resin and artistically manipulating them during application to create intricate swirls and depth. While traditional epoxy flooring excels in strength and adaptability, metallic epoxy flooring shines for its artistic expression and customizable nature, making it a premium choice for individuals seeking a high-end, visually stunning flooring solution that enhances the sophistication of any space.

Features Of Metallic Epoxy Floor Coating:

1. Self-leveling capabilities for a perfectly even surface
2. High impact resistance for heavy-duty use
3. Customizable colors and patterns
4. Easy to apply, clean and maintain
5. Naturally de-foaming with no ripples
6. Decorative marble appearance flooring

Advantages Of Metallic Epoxy Floor Coating:

Metallic epoxy floor coating is a low yellowing epoxy resin mixed with metallic pigments. Tiny, shimmering pigments are mixed into the epoxy and poured onto the floor or substrate. When these paints are stirred by a brush or roller, they gather, separate, twist and reflect light at different angles. Eventually, the epoxy hardens and the metallic pigments lock into place, giving them a three-dimensional, swirly appearance. Metallic epoxy floor coatings are not only look beautiful, but can meet all your performance needs. They are perfect for living rooms, office, restaurants, galleries and more.

Product Descriptions Of Metallic Epoxy Floor Coating:

Item	Epoxy Resin(A)	Hardener(B)
Appearance	Liquid	Liquid
Color	Transparent	Transparent
Viscosity@25°C	700-900 mPa.s	300-500 mPa.s
Density, g/cm ³	1.05±0.05	0.95±0.03
Mix Ratio	2:1 by weight	
Hardness	Shore, D80-85	
Pot Life	30-40mins@25°C	
Curing Time	6-8hrs@35°C, 10-15hrs@25°C 24hrs, Dry Completely	
Recoat Time	2Hrs	
Thickness	1-3 mm	
Shelf Life	12 Months	
Application	Industrial Use - Garages, Warehouses, Airports and hangars. Commercial Use - Shopping malls and boutiques, Hotels, Offices, Showrooms, Restaurants, Hospitals, Schools, Bar Tops, Table Tops. Residential Use - Entrances and hallways, basements, entertainment rooms, bathrooms, kitchens and living rooms.
